Dear Chairperson Rogers,

I request information regarding the use of office equipment in the Auditor's department. Specifically, I request logs from any and all SAVIN MP C4503 in that department for the date of June 02, 2016. I also request all details on a file which was created on a SAVIN MP C4503, file name is 20160602112406047.pdf, who scanned that file, where that file was sent to, and the contents of that file.

Please expedite this request, as I believe the information may show evidence of election law violations by a person or persons in the Auditor's department.

Thank you,

Joe Stutler
